## Presentation

We are pleased to present the Canadian Association for Graduate Studies' (CAGS) 1990-2001 Statistical Report on enrolment and graduation at the Master's and Ph.D. levels. This report was generated on the basis of data obtained from Statistics Canada, whose database on universities comprises information provided to Statistics Canada by the universities themselves.

This report is vastly different from preceding reports. Statistics Canada has changed its information system for processing data on universities, and as a result, we are presenting enrolment data for the Master's and Ph.D. levels for each year from 1990 to 2001. All the numerical data on the student population generated by Statistics Canada's new system are now automatically rounded out to the nearest unit of 5. Consequently, this has little impact where the number of students is high, but it may generate discrepancies in the figures per province and for the country overall. Therefore, in the presentation of tables, an absence of data usually indicates zero enrolments or graduations; an entry of zero (0) means one or two enrolments or graduations; an entry of 5 means 3 to 7 enrolments or graduations, etc.

The tables provide the following information with respect to enrolment data for the period beginning in 1990 and ended in 2001:

- Enrolment at the Master's and Ph.D. levels in Canada, by university and disciplinary field.
- Women enrolment at the Master's and Ph.D. levels in Canada, by university and disciplinary field.
- Non-Canadian enrolment at the Master's and Ph.D. levels in Canada, by university and disciplinary field.
- Full-time and part-time enrolment at the Master's and Ph.D. levels in Canada, by disciplinary field.

## Présentation

Nous avons le plaisir de vous présenter le rapport statistique 1990-2001 de l'Association pour les études supérieures (ACÉS) portant sur les données d'inscription et de diplomation aux cycles supérieurs. Ce rapport est produit à partir des données obtenues de Statistique Canada dont la banque de données sur les universités provient d'informations transmises à Statistique Canada par les universités elles-mêmes.

Le présent rapport diffère grandement des précédents. Statistique Canada ayant modifié son système informatique de traitement des données sur les universités, nous vous présentons les données d'inscription à la maîtrise et au doctorat pour chaque année comprise entre 1990 et 2001. Toutes les données numériques portant sur la clientèle étudiante générées par le nouveau système de Statistique Canada sont maintenant automatiquement arrondies à 5 unités près. Cela présente peu de conséquence si le nombre d'étudiants est élevé mais peut générer des écarts dans les sommes par province et pour l'ensemble du pays. Ainsi, dans la présentation des tableaux, une absence de données indique habituellement une inscription ou une diplomation égale à zéro; une entrée à zéro (0), correspond à une ou deux inscriptions ou diplomations; une entrée à 5 représente de 3 à 7 inscriptions ou diplomations; etc.

Pour les données sur les inscriptions, les tableaux rapportent les informations suivantes pour la période de 1990 à 2001 :

- Le nombre d'inscriptions à la maîtrise et au doctorat au Canada, ventilé par établissement universitaire et par grand secteur disciplinaire.
- Le nombre d'inscriptions de femmes à la maîtrise et au doctorat au Canada, ventilé par établissement universitaire et par grand secteur disciplinaire.
- Le nombre d'inscriptions d'étudiants étrangers à la maîtrise et au doctorat au Canada, ventilé par établissement universitaire et par grand secteur disciplinaire.
- Le nombre d'inscriptions à plein temps et à temps partiel à la maîtrise et au doctorat au Canada, ventilé par grand secteur disciplinaire.

The tables provide the following information regarding degrees awarded for the period beginning in 1991 and ended in 2000:

- Master's and Ph.D. degrees awarded in Canada, by university.
- Master's and Ph.D. degrees awarded to women in Canada, by university.

The disciplinary fields used in this report are those defined by Statistics Canada in its new system. Enrolments are the only data currently available by disciplinary field.

Statistics Canada's enrolment data may also be divided by citizenship: Canadian citizen, permanent resident, student Visa, other Visa, other non-Canadian. We have chosen to define "non-Canadian" as all students who are not Canadian citizens. These data are presented in the series of tables listed under Table 3.

Finally, the data contained in this report are available on the CAGS Web site in Excel tables or PDF documents.

We would like to thank Ms. Mary-Frances Lawlis and Ms. Manon Declos of Statistics Canada for their invaluable cooperation in producing the data for this report.

Any comments or suggestions to improve this report are welcome.

Pour les données sur la diplomation, les tableaux présentent les résultats suivants pour la période de 1991 à 2000 :

- Le nombre de diplômes de maîtrise et de doctorat décernés au Canada, ventilé par établissement universitaire.
- Le nombre de diplômes de maîtrise et de doctorat décernés à des femmes au Canada, ventilé par établissement universitaire.

Les grands secteurs disciplinaires utilisés dans le rapport sont ceux définis par Statistique Canada dans son nouveau système. Seules les données d'inscriptions sont disponibles actuellement par grand secteur disciplinaire.

Les données d'inscriptions de Statistique Canada peuvent aussi être ventilées selon le statut de citoyenneté : citoyen canadien, résident permanent, Visa d'étudiant, autre Visa, autre statut d'étranger. Nous avons choisi de définir comme «étudiant étranger» tous les étudiants qui n'ont pas la citoyenneté canadienne. Ces données apparaissent dans la série de tableaux 3.

Enfin, les données de ce rapport sont disponibles sur le site web de l'ACÉS sous forme de tableaux Excel ou de documents PDF.

Nous tenons à remercier mesdames Mary-Frances Lawlis et Manon Declos de Statistique Canada pour leur collaboration inestimable dans la production des données pour le présent rapport.

Tous les commentaires et les suggestions visant une amélioration de ce rapport sont les bienvenus.
